The UNI-SET Steering Committee serves as an advisory body that oversees the overall implementation of the project. Its purpose is to strengthen the quality and relevance of the project work through the monitoring and assessment of its activities. Its main tasks are to give input and guidance for the project activities, provide feedback on the work which has been done, contribute to disseminate the activities and results of the project and support the project team with its expertise and knowledge.

The UNI-SET Steering Committee consists of:

Prof. Mihaela Albu, University Politehnica of Bucharest, Romania
Prof. Harald Bolt, Forschungszentrum Jülich, Germany; European Energy Research Alliance
Dr. Lidia Borrell-Damian, European University Association (Project Coordinator)
Prof. Torbjørn Digernes, Norwegian University of Science and Technology, Norway (Chair)
Prof. Johan Driesen, Katholieke Universiteit Leuven, Belgium; KIC InnoEnergy (Project Partner)
Prof. Giovanni Vincenzo Fracastoro, Politecnico di Torino, Italy
Prof. Torsten Fransson, KTH Royal Institute of Technology, Sweden; KIC InnoEnergy
Prof. Sigurdur Magnus Gardarsson, University of Iceland, Iceland
Prof. Jean-Michel Glachant, University of Paris Sud, France; Florence School of Regulation, Italy
Prof. Tim Green, Imperial College London, United Kingdom
Prof. Armin Grunwald, Karlsruhe Institute of Technology, Germany
Dr. Douglas Halliday, Durham University, United Kingdom
Prof. Paulien Herder, Delft University of Technology, The Netherlands
Prof. Peter Lund, Aalto University, Finland
Dr. Peter Hauge Madsen, Technical University of Denmark, Denmark
Prof. Michael Narodoslowsky, Graz University of Technology, Austria
Prof. Stanislav Radovan Pejovnik, University of Ljubljana, Slovenia
Prof. Gabriel Sala, Technical University of Madrid, Spain
Dr. John Smith, European University Association
Prof. Karol Sztekler, AGH University of Science and Technology, Poland
Ms. Elisa Tesselli, DG Research and Innovation, European Commission
